# LOVE NOTES

Malika made us all feel so comfortable and took time to get to know us as a family and what we wanted from the shoot. I'm not particularly great in front of a camera but I was made to feel at ease at all times and we achieved so many beautiful shots. Her client wardrobe is wonderful and made the whole process less stressful as I was able just to arrive without thinking about what I would wear. From the booking process to the final edit and order Malika has made every step easy, relaxed and enjoyable - not to mention her photography style is incredibly natural and beautiful.

From start to finish, Malika provided a 5-star service. I had never had professional photos taken and I was immediately placed at ease in her stunning home studio in Harrogate. The experience and images are like nothing I could dream of. Her attention to detail, experience and talent is second to none and the prints we have will be treasured forever by my family and I look forward to our next photo shoot!

# WHAT TO WEAR

@MJP\_CLIENTWARDROBE

My style of photography embraces love, and connections and a neutral colour palette helps do this. Why? Well it's so that you and your family remain at the focus of your portraits. It avoids dating your images with 'fashion' clothing, or bold prints which detract from you at the heart. This really works well showing off skin tones and brings life to your images.

I recommend everyone in the family compliments rather than matches. Mum, start with either a neutral, natural colour, white as a base then add texture, more neutrals or pops of denim/navy from there. I have a range of styles of dresses which compliment your body shape. Try flowing neutral summer dresses or oversized white shirt/jeans as a start.

Dads cant go wrong with a white casual shirt, tee or oatmeal coloured jumper with beige chinos/smart jeans.

For little ones, pair back their look. Think dungarees or rompers, bloomers or a peter pan collared vest, or dresses and bloomers (to hide nappy/undies).

For newborns, I recommend a vest, romper or bloomers for individual images as this is a chance to see their tiny feet, chunky arms and scrunchy hands. For family portraits, there is the option for an outfit such as knitted romper, all in one or even the option stayed wrapped and cosy in a style blanket!

YOUR LOVE,  
YOUR STORY.

# CLIENT WARDROBE

If you have a few ideas in mind, please feel free to bring them on the day and together we can work out what works best, and what you feel most confident in.

The studio is a bare feet studio so footwear is one less thing to coordinate!

Things you may want to consider/avoid.

Logos- We want to create timeless images.

Busy patterns- They create a wiggly line look.

Black- This can really take away from what we want to achieve.

Fake Tan\*- It will be seen! To compliment your family, I recommend avoiding fake tan.

Mamas, remember to bring nude bra/undies for your sessions.

\*Unfortunately you will not be able to wear any client wardrobe dresses if you are using tan.
