With one less thing to worry about, you can trust that I have plenty of items to choose from a vast wardrobe of selected pieces suitable for pregnant Mamas, newly post-partum Mummy's as well as Mums who deserve to feel amazing for their session. For littles, I cater for Newborn to 2 but am always growing my mini wardrobe with some pieces up to age 7.

From floaty, neutral dresses, maternity pieces and knitwear all available for your exclusive use during your session, there are rails of outfits and plenty to choose from. Wear something you love!

This guide will help give you ideas of what you may like to try for your session - and of course I love to hear from you. Please complete your client questionnaire so I can help tailor your session, and of course feel free to send messages/inspo pics.

"Everything I will ever truly want in life is right here, in my arms."

PREPARING *your newborn baby*

If little one arrives before their due date, or is a little delayed, please rest assured I always keep reserve sessions available. When everyone is home and settled, **just pop me a message at your earliest convenience to let me know your newborn has arrived and to secure your session date.**

On the day itself, just bring yourselves, milk, any keepsake blankets, teddys etc you may wish to use. I have everything else you will need.

When you arrive, we will start with changing, settling and feeding your baby, so they have a full tummy (which prompts sleep!). My sessions are entirely baby led - so if baby is unsettled on their tummy, refluxy, or simply not wanting to snooze, I adapt!

"I have been waiting for you to arrive so our story can truly begin"

PREPARING *your little ones*

Parents can often be nervous of a photoshoot with little people, especially toddlers! Please don't be! I take my time, read the room, and allow your little one to settle in.

Beforehand, it's a good idea to get your little person on board with what is about to happen; and perhaps get them involved in choosing their outfit so in the day itself, everything runs a little more smoothly before you arrive.

On the day, make sure everyone has eaten to avoid a hangry situation, and feel free to bring **dried** snacks with you just in case. Your little one is also welcome to bring a teddy/toy - but bear in mind these may feature in the photos. Where possible - avoid iPads/screens.

Please DON'T force your child to look at the camera. It will happen when they are ready and often the candid/not looking ones are cuter!

IN HOME SESSION

Sometimes it works better for you and your family to have an in home session, or perhaps you want your much loved family home environment to be the backdrop of your family portraits.

*Your home is not the focus of your session,
your family is.*

What can be cuter than you and your newborn cosied up in their nursery, family games in the kitchen, or your children in the garden. Family photoshoots in home can often make family members a little more relaxed and may work best for your portraits - especially if you are looking to include your pets.

For home sessions, I love to embrace your family home to help style your family portraits - but that doesn't mean it has to be a show home! On the day itself, we can move toys out the way, and make adjustments to help get the most from your session. Beforehand, I may ask for pictures of some of your rooms to help coordinate the best lighting - and everything else I will bring on the day.

Newborn sessions can work really well in newly decorated nurseries, or cosied up on parents bed. Toddlers and older children may like to be playing in their bedroom, curled up on the sofa, or family photos in the kitchen. There are endless possibilities to help capture your family in their family home.

OUTDOOR SESSION

Summer breeze, family fun and capturing the joy of children being perfectly themselves. Outdoor sessions can be packed with so much joy, fun, games and laughter, as well as the capturing the candid cuddles and gentle hand holds. It's also the perfect way to get your pets involved in your photoshoot.

I have the most relaxed and private setting just outside my studio, or perhaps you have a much loved place you take your family. I love being outdoors capturing your family and an outdoor photoshoot can be the perfect way to capturing your family.

As with all sessions, they are relaxed, with a few games, and plenty of exploring. Suitable for ALL types of sessions, outdoor sessions add a perfect backdrop to your forever memories.

*Unfortunately pets aren't able to come into the studio, but outdoor sessions mean they can still be involved!

FOR THE WHOLE FAMILY

Whether you have booked a newborn session, maternity, family or birthday - with EVERY SESSION, I capture a range of images as part of your gallery. This means that older siblings are of course joining in too, parents portraits are a must, as well as the detailed tiny hands and faces.

I often get asked if older child can join in with baby's birthday session, YES, absolutely! In fact some of the cutest family portraits I've taken are the moments in between - the subtle kisses, tight hugs and warm smiles.

All sessions include all family members so whatever type of session you have booked it's designed to suit the whole family.

Kind Words

“Malika made us all feel so comfortable and took time to get to know us as a family and what we wanted from the shoot. I’m not particularly confident in front of a camera but I was made to feel at ease at all times and we achieved so many beautiful shots. Her client wardrobe is wonderful and made the whole process less stressful as I was able just to arrive without thinking about what I would wear. From the booking process to the final edit and order Malika has made every step easy, relaxed and enjoyable – not to mention her photography style is incredibly natural and beautiful.”
